Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 03 October 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claim Objections

1. Claim 21 is objected to because of the following informalities: The word "an upset or coupling" in claim 21, line 7 should be --said upset or coupling-- since it refers back to the "upset or coupling" in lines 1 and 6. Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

3. Claims 1 and 3 are rejected under 35 U.S.C. 102(b) as being anticipated by Hawkins et al (US 5,918,673).

The claimed structure reads exactly on the reference's when members (71,72,83,81) and (82,84,20-29) of Hawkins et al '673 are respectively considered as "mandrel" and "seal" as recited.

4. Claims 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Stokley (US 5,682,952).

The claimed structure reads exactly on the reference's when members (84) and (44 or 158) are respectively considered as "mandrel" and "seal" as recited.

Art Unit: 3672

Response to Arguments

5. Applicant's arguments filed October 3, 2003 have been fully considered but they are not persuasive. With respect to the Hawkins et al reference, members 82, 84 and 20-29 constitute the "seal" as claimed. This "seal" is movable with respect to the mandrel (81,38,72,71) to engage the interior annular surface adjacent the female thread on the tubular. Since the word "adjacent" is a relative term, the seal 29 as shown in Figure 4 is clearly adjacent the female thread at the upper end of the tubular 32. Regarding the Stokley reference, contrary to applicant's argument, seal 158 shown in Figure 7 of Stokley is clearly "adjacent" to the female thread in coupling C.

Allowable Subject Matter

6. Claims 2, 4-10 and 13-21 are allowed.
7. Claims 11 and 12 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Specification

8. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the range of 50 to 150 words. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

9. The abstract of the disclosure is objected to because the abstract exceeds 150 words.

Correction is required. See MPEP § 608.01(b).

10. The disclosure is objected to because of the following informalities: The copending application recited on the first page of the specification should be updated. Page 13, line 4,

"nose (62)" should be --nose (72)--.

Appropriate correction is required.

Conclusion

11. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hoang Dang whose telephone number is 703-308-2149. The examiner can normally be reached on 9:15-5:45 Monday-Friday.
